

## SHARED INSIGHTS

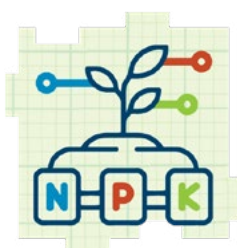

**Better understand your plant nutrient uptake with our new interactive visual plant tissue report.**

Harness the power of interactive reporting by joining Shared Insights, our comprehensive visual plant tissue reporting enhancement.

Participate in our improved program to track your plant tissue results through a visual trending report, gaining valuable insights for informed decision-making in-season and strategic planning for next year's crop.

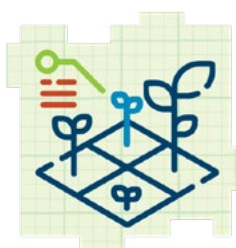

### Benefits of the program include:

#### **Informed Adjustments for Next Year's Crop:**

Acquire knowledge and insights to fine-tune your approach for the upcoming crop season.

#### **In-Season Decision Support:**

Make timely application decisions for in-season adjustments based on your plant tissue data.

#### **Comparison to Midwest Labs Norms:**

Evaluate your results against the established norms at Midwest Labs.

Participants will receive the results of their submitted plant tissue samples through our [Plant Tissue Complete Package](#) that encompasses tests for essential nutrients with a speedy 3-5 business day turnaround.
