

## WATER ANALYTICAL PACKAGES

- These packages are recommended for testing drinking water, potable water, and water used for human consumption. Use the [Domestic Water Sample Submittal Form](#) for any of the following packages.
- **Any testing requiring a 125ml Sterile Bottle must use a MWL Kit and the sample must be returned within 24 hours of sampling, before 4pm.**
- Any container can be used for 250ml and 500ml Bottles. A MWL Container is not required, but are available for your convenience.
